HRMS

- “HRMS” stands for Human Resources Management System. It refers to a suite of software that organizations use to manage internal HR functions.
- From employee data management to payroll, recruitment, benefits, training, talent management, employee engagement, and employee attendance, HRMS software helps HR professionals manage the modern workforce.
- HRMS systems put information about a company’s most valuable assets in front of the people who need them.

Methodology

- The HTML code for **Horilla**, an open-source **HR software platform**, is structured to ensure **user-friendliness, responsiveness**.
- The **hero section** features a compelling headline, call-to-action buttons, and visuals to engage users.
- The **feature section** highlights key functionalities, while the **call-to-action sections** promote the mobile app and different HR modules.
- A well-organized **footer** provides branding, social media links, and legal information. Additionally, **JavaScript** is used to handle **interactive elements, form submissions, and search functionality**, ensuring a **smooth user experience** across devices.
